

Project 2: Tony Reeves, Nathan Novak, Peter Christensen

Title of app: Beer Me!

Abstract: The app is for brewery patrons at a single location to vote for their favorite beer the brewery serves at that moment. The app will contain a method for users to enter their name, email, and age brewery name (from dropdown list) so they can participate in the voting and social media.

The results will be displayed on website page which will update as users in the establishment vote in realtime.
